PRECISION IN DETAILS

## How We Create Your Outfits

We follow a thorough, high-end process to ensure absolute design precision and perfect fit sizing.

### 01

#### Styling Consultation

Collaborate with our designers via virtual video calls or in person at our studio. We discuss silhouette layouts, necklines, sleeves, custom cuts, and embroidery options.

### 02

#### Fabric & Embellishment Selection

Choose from our curated collection of premium raw silk, Banarasi, pure organza, chiffon, and velvet. Or send us your own fabrics to stitch.

### 03

#### Pattern Drafting & Embroidery

Every garment is custom-drafted onto paper patterns before cutting. Our skilled local artisans (karigars) handcraft exquisite embroidery (zardozi, beads, aari, and stones).

### 04

#### Perfect Fit Stitching

Our tailors assemble the pieces with exact alignments, premium inner linings, double stitching, and margins for future alterations. Standard stitching takes 7-10 business days.
